Dear Scott and Associates,

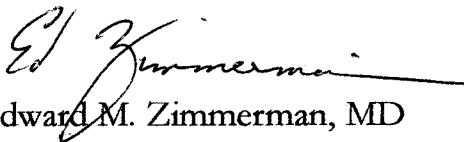

This is a letter of appreciation for your professionalism, candor and astute, legal expertise over the past several years. Your representation of me and my Nevada Corporation against this exasperating, frivolous law suit has finally concluded in an irrevocable motion for summary judgment in which you prevailed and we were awarded total dismissal of the case...despite the plaintiff's treacherous changing of accusations, facts and representation over the course of the events.

Your thoughtful actions educated me and prevented me from engaging in useless, expensive posturing. This likely saved significant time and money by eradicating the suit (repeatedly) before it had a chance to die of natural (read "expensive jury trial") causes. When I responded emotionally, you responded compassionately and clinically, never softening or sugar coating the truth; but your determination to get to a successful conclusion and support for my cause was always apparent.

Throughout the many judicial twists in this case you hung in there tenaciously, reacted thoughtfully and even learned enough medicine to be comfortable entrusting me with your own care. There is no higher complement to a clinician and I appreciate your being a walking advertisement for my skills, as I am of yours.

So again, many thanks for all your hard work. Congratulations on a successful and righteous conclusion to a difficult case. And best wishes to you and your firm for continued success fighting the "good" fight and educating us non-believers that justice will eventually prevail...if Scott is there to help everyone see the truth.

Cordially,

Edward M. Zimmerman, MD
